

**A GUIDE TO KEY DOCUMENTS IN HEALTH CARE FOR NURSES,  
MIDWIVES AND HEALTH VISITORS 1986 - 1999 2nd edition**

By Anne Brown, Lyn Crecy, Anne Henderson and Susan Martin  
Academic and Information Services, University of Plymouth

Four health librarians in the South West have collaborated to produce this digest of the most 'asked for' documents in health care, published in the last 13 years: everything from government white papers and acts of parliament to reports from organisations such as the King's Fund and Action for Sick Children. Each entry includes a reference, an abstract and where possible, further reading. The Guide also features a chronological index, lists of the major organisations and web sites as well as reading lists on portfolios, profiling, interview technique and curriculum vitae.

We hope this will be useful to new students of nursing, midwifery and health visiting, nurses returning to practice and those involved in professional development or preparing for interview. The Guide will also provide a worthwhile background of information for any professionals new to health care.

The Guide is available at £9.50 including post and packing. To order your copy, please complete the form and return it with a cheque/postal order to Anne Henderson at the address below.
