

## Editorial

This month's bulletin focuses on the themes of the Health Libraries Group Conference, held in Eastbourne in July, including a review of the excellent LfN presentation given by Frances Norton of the Wellcome Library. Several of the presenters who spoke on themes specifically relevant to nursing have contributed articles to refresh the memories of those who attended HLG and to inspire and inform those who didn't. There are some useful new resources, great examples of practical work carried out at the coal face. CRD also continue the article started in the last edition with some great information about their databases.

I for one found HLG interesting and inspiring, and hope that those who were unable to attend will glean at least a little of what they missed from this Bulletin. The PowerPoint slides for many of the presentations are available on the CILIP website: [www.cilip.org.uk](http://www.cilip.org.uk) in the Health Libraries Group section.

One final point: did you know that as a member of the LfN Committee you get your travel expenses paid for all journeys to committee meetings, plus a free M&S lunch of your choosing. Interested? Contact Jane Shelley, LfN Chair [j.shelley@anglia.ac.uk](mailto:j.shelley@anglia.ac.uk)
