

Forthcoming Events

LfN will be running an Event on *Friday 12 November 2004* at the *Royal College of Nursing*, London on the theme of *"Resources and Sources"*. The Event will aim to discuss resources supplied by publishers, database providers, indexing services etc. to support nursing librarians and will also look at the roles of librarians working within provider organisations. With John Lewis around the corner from the RCN, you could also combine the Event with some Christmas shopping!

More information and booking will be available nearer the time in the Libraries for Nursing Bulletin, or via the lis-nursing mailing list. Alternatively, please contact Kathy Cook, kcook@health-homerton.ac.uk for more information.

LfN will also be contributing to the Health Libraries Group (HLG) Conference. LfN Committee members will be available throughout the Conference and the LfN presentation will take place on 6 September 2004 at 3.15pm.
